# New Infrastructure for Opening Social Science Data

**Wojciech Fenrich, ICM, University of Warsaw**  
**[wf@icm.edu.pl](mailto:wf@icm.edu.pl)**

# ICM: services, resources and tools

---

- OpenAIRE infrastructure,
- Platform for open journals and books.
- Data and publication repositories,
- Bibliographic databases hosting,
- Repository package.
- Open institutional policy template.

# ICM: Education and advocacy

---

- OpenAIRE NOAD,
- Reports, books and translations,
- Educational materials.
- Training and workshops,
- Conferences,
- Policy advocacy.
- More information: <http://pon.edu.pl/>

# DRODB Project

---

- DRODB: *Domain-Specific Repositories for Open Research Data*
- Implementation period from mid-2018 to mid-2021.
- Funding: 4 998 889 PLN (slightly above 1 million Euros) from Digital Poland Operational Programme.

# Institutions Involved

---

- Leader: University of Warsaw
  - Interdisciplinary Centre for Mathematical and Computational Modelling
  - Robert Zajonc Institute for Social Studies.
  
- Partners:
  - Institute of Philosophy and Sociology, Polish Academy of Sciences,
  - Adam Mickiewicz University (responsible for crystallographic data).

# Project's goals

---

- Preparing and sharing over 600 datasets,
- Creating three repositories: for general purpose, social science and macromolecular crystallography.
- Gathering experiences and creating a basis for further development of domain-specific data repositories.

# Project assumptions

---

- We don't want to reinvent the wheel – plenty of repository software exists.
- We would like to be able to customize selected repository software.
- We would like to have a good starting point for creating domain-specific solutions.

# Why Dataverse?

---

- Written in Java.
- Has plenty of features.
- Has highly configurable metadata.

# Possible difficulties

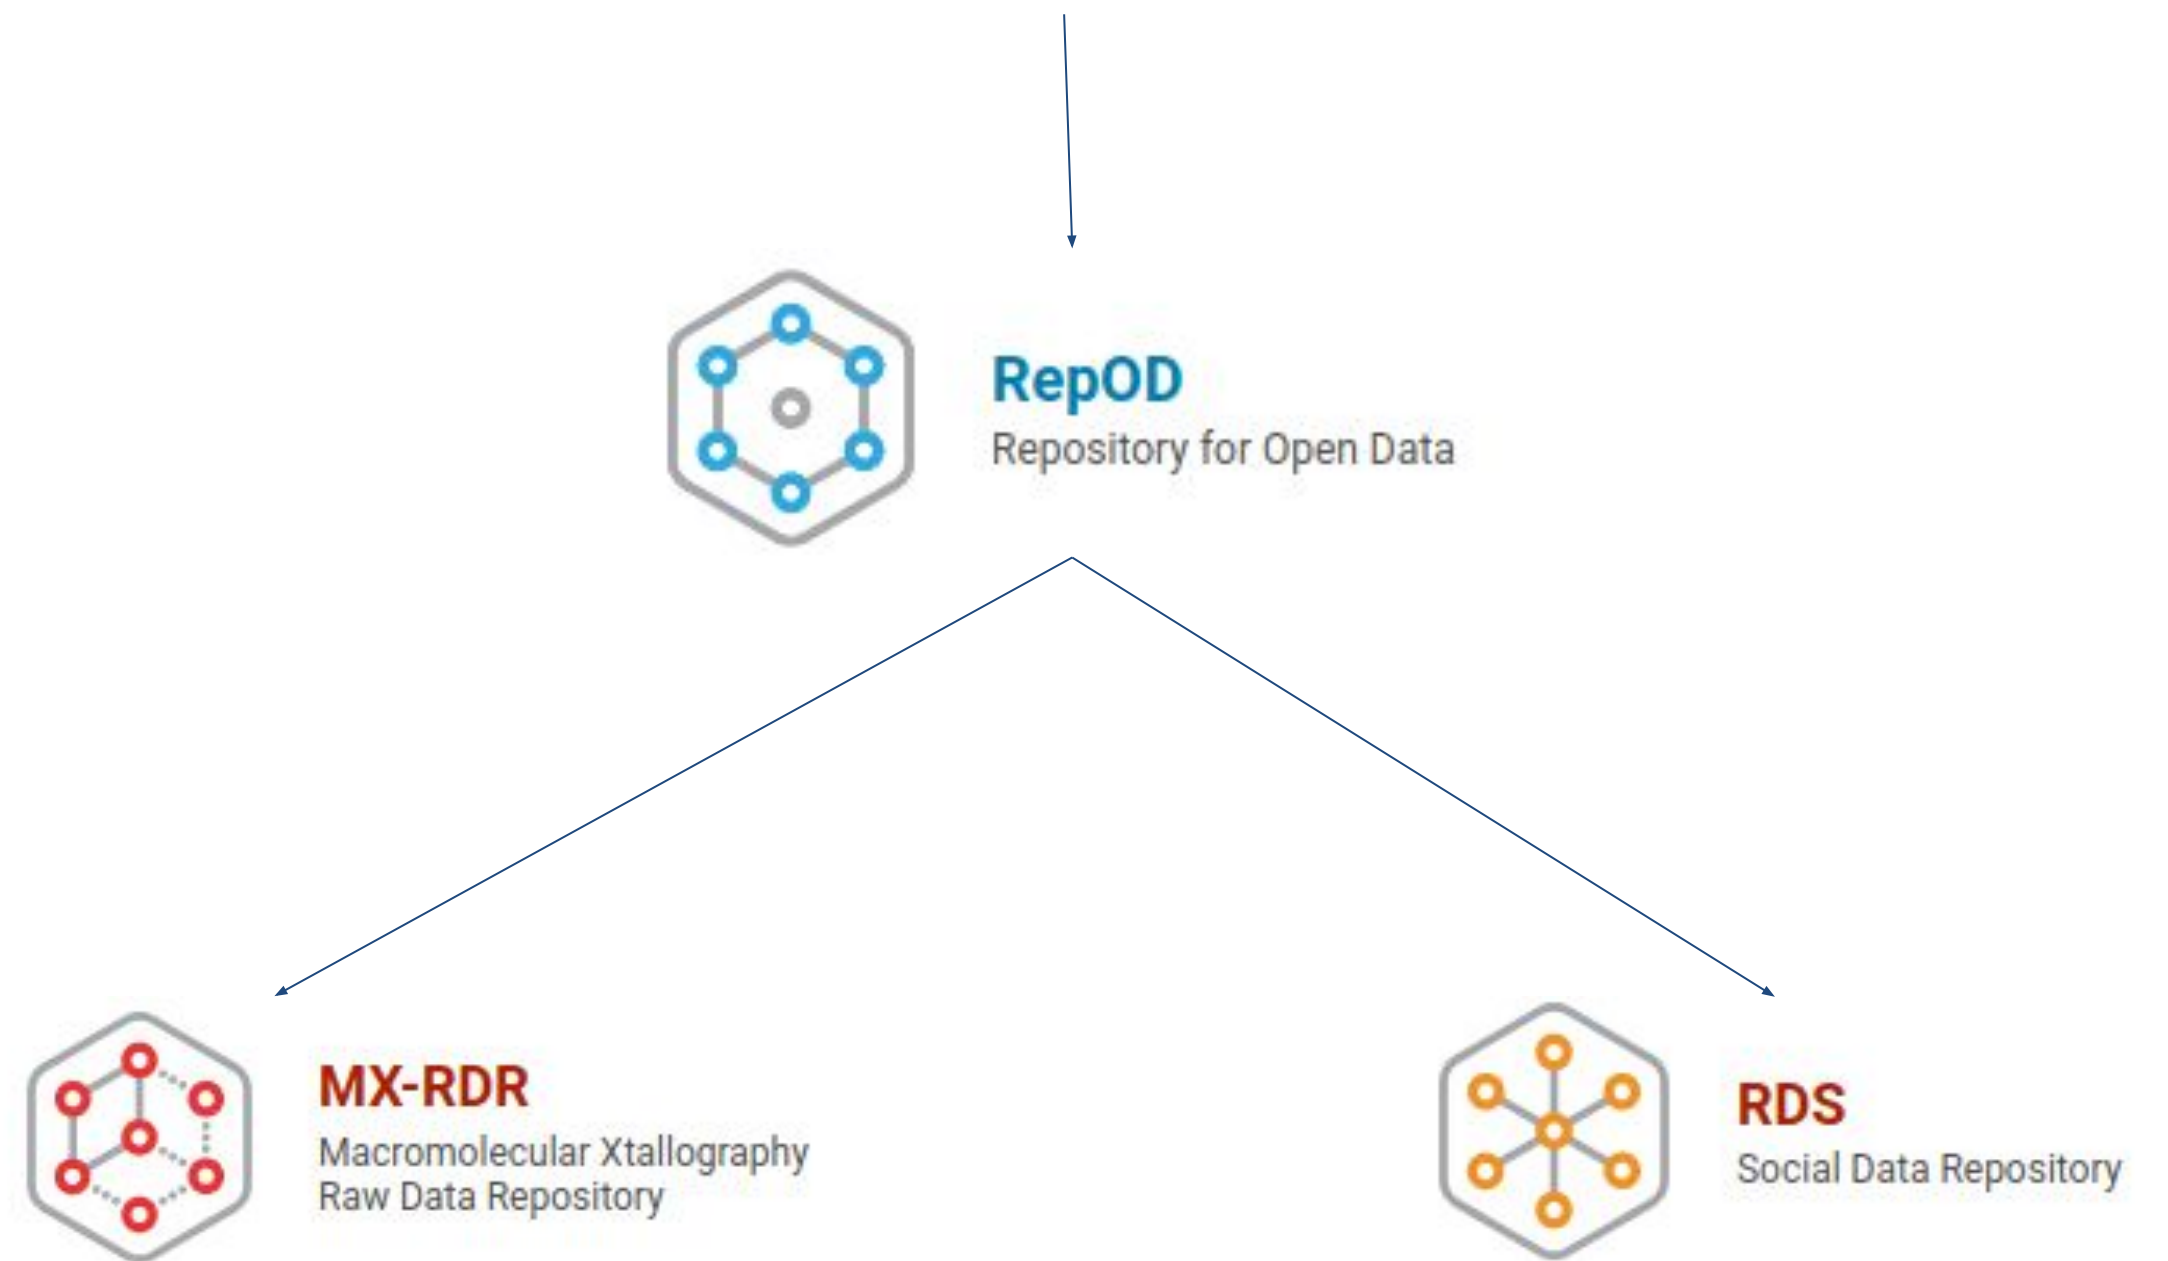

---

- Our project, our obligations, our deadlines
  - => fork.
- Long legacy may complicate changes
  - => refactor.

# From Dataverse to RDS

---

The **Dataverse**<sup>®</sup> Project

Aktualne problemy i wydarzenia (311). Kwiecień 2016  
Mar 17, 2021 - Aktualne Problemy i Wydarzenia

Fundacja Centrum Badania Opinii Społecznej, 2021, "Aktualne problemy i wydarzenia (311). Kwiecień 2016", <https://doi.org/10.18150/4QPK80>, Repozytorium Danych Społecznych, V1, UNF:6:is1vMfIRpxgeJk0o2Ks7Q== [fileUNF]

# Main changes

---

- Polish and English interface,
- Changes in social science metadata,
- Licenses assigned to files,
- WCAG improvements.

# RDS Workflow

---

- Data deposits possible within PADS and ADJ.
- PADS and ADJ have their own, specific metadata configuration.
- Archives' administrators are responsible for data verification and publication.

# Access and licensing

---

- Configurable list of standard Creative Commons licenses.
- Restricted Access.
- Guestbooks.
- Metadata always available on CC0.

## Beyond RDS

---

- Educational materials (in Polish) concerning:
  - data sharing,
  - using data shared by others,
  - legal issues,
- Workshops (webinars) on research data management.
  - general,
  - domain specific.
- More information: <https://drodb.icm.edu.pl/>

# What's ahead of us

---

- Sharing the remaining data.
- Integration with external services  
(OpenAIRE, other Dataverse installations).
- Workshops, workshops, workshops...

# Thank you!
